Ms. Clark's Class

Hello, Harmony-Leland Family!
Check your child's bookbag this Friday,
2/14/20 for their Progress Report and
graded work.

Due Dates

- 2/25/20: Double Dutch P.E. Field Trip- bring in \$3 and your permission slip
- 2/25/20: STEM Habitat Project due

School Events

- 2/17/20-2/21/20: No School- Winter Break
- 2/28/20: Valentine's Day Dance

Six Flags Ticket

Read To Succeed is a free program that allows students in grades K-6 to earn tickets to Six Flags Over Georgia just by reading six hours for fun.

Here is how your child can earn a free ticket to Six Flags:

- 1) Register this fall using this link:
Visit: sixflags.com/books
Use Ms. Clark's code: **CVBQW**
- 2) Your child may read any books they choose

Hello parents and happy new year! I hope you all had a great holiday break. Just a few friendly reminders for the remainder of the year:

1. Please make sure that ALL TRANSPORTATION CHANGES ARE REPORTED TO THE FRONT OFFICE. This ensures that every child goes home the proper way and avoids confusion. You are welcome to write a note as well.
2. Encourage positive behavior and respect for all teachers and peers
3. Check over and discuss homework with your child
4. Encourage your child to read nightly for at least 20 minutes (Please use Read to the Final Four if you have access to the internet)
5. Please encourage your child to practice and learn multiplication facts 0-12

Good morning parents! I hope all is well. Third grade is participating in a reading program called Read to the Final Four. Please read the letter that will be sent home today which includes instructions on how to log in. Thanks in advance for your support 😊

Review

Multiplication

Five spiders were crawling up the wall. How many spider legs were there all together?

You will:

- Look at the picture to know how many legs one spider has.
- Write down the equation.
- Show how you got your answer in two different ways using some of the strategies we have learned.
- Draw, write numbers or take a video while using math manipulatives.
- Check or listen to your presentation before uploading

In response to: Multiplication

since spiders have eight legs, and there were five spiders crawling on the wall then I would have to multiply 5 times 8 and the total of legs would be 40

iSmith

In response to: Multiplication

$$8 \times 5 = 40$$

Humans are evolutionary hardwired to forget most of what we learn—and it happens almost immediately. Here are five easy-to-implement strategies to help important lessons stick.
